APPENDIX

1988 Production Estimates 135
1989 Production Estimates 136
International Trade of Canada Classification of Countries 137

INTRODUCTION

This report presents export information for calendar year 1989 in a format that was begun in 1988. It provides estimates of out-of-province exports and out-of-country exports. The latter is presented in two sections, the first detailing exports by commodity and the second detailing exports by country of destination. Prior to 1988, exports by commodity and exports by country were published as two separate reports.

SOURCES AND METHODS

The out-of-province export estimates in this report represent shipments to other Canadian provinces as well as out-of-country exports. The methodology for deriving these estimates involved the use of data from a variety of sources, ranging from government publications to private industry contacts.

Primary out-of-country exports were obtained from the International Trade Division of Statistics Canada. Supplementary statistics were mainly from provincial government sources. In a number of cases adjustments and revisions to Statistics Canada's export data were required to overcome inaccuracies resulting from the attribution of exports on a province of lading basis rather than by province of origin.

OUT-OF-PROVINCE SHIPMENTS

The estimated value of out-of-province shipments in 1989 declined by 3 per cent to $3,675 million, from $3,786 million in 1988. The reduction was due mainly to a $103 million drop in grains and oilseed shipments. In spite of this, grains and oilseeds made up 46 per cent of the total value of shipments.

Meat and animal products accounted for 30 per cent of the value of shipments, with live animals representing a further 13 per cent. Forage seeds and other crops and crop products accounted for another 10 per cent. Peat moss and beverages constituted the remaining 1 per cent of shipments.

EXPORT OVERVIEW

The value of Alberta's 1989 out-of-country exports of primary and processed agricultural products was estimated at $2,081 million. This represented about 57 per cent of out-of-province shipments. In 1988 out-of-country exports totalled $2,431 million, representing 64 per cent of the out-of-province shipments for that year. Significant gains were achieved in exports of beef, barley, oats, dehydrated alfalfa and milled cereals. Unfortunately, these advances were more than offset by substantial decreases in shipments of a few major commodities.

Alberta's live cattle exports decreased in 1989 to $146.6 million from $222.4 million in 1988. This resulted from a reduction of some 75,000 head in sales volume owing to increased feeding and slaughter activity domestically. In consequence, Alberta's share of Canadian cattle exports fell to 34 per cent from the previous year's level of 50 per cent.

The imposition of a countervail duty on pork entering the United States was largely responsible for a 28 per cent drop in 1989 pork exports, to about $34 million. However, live hog export sales were strong during the year, totalling some $56 million, over 5 per cent higher than the previous year's total.

Wheat export, valued at $573 million, was down 46 per cent from a year earlier. Nonetheless, wheat remained Alberta's most important agricultural export commodity, accounting for over 27 per cent of total export revenue. The 1989 wheat export value was one of the lowest on recent record, and was caused by marked decreases in shipments to the U.S.S.R. and China (PR).

Partly as a result of the deregulation of oat marketing, exports of oats more than doubled from 1988 levels to over $87 million. Barley exports also doubled to $291 million while canola/rapeseed shipments rose by over $23 million to almost $254 million.

TRADING PARTNER AND REGIONAL REVIEW

Alberta's major agricultural export markets have traditionally included the United States, Japan, the USSR and, to a lesser extent, the People's Republic of China, Saudi Arabia, Taiwan and South Korea. In 1989, these seven countries accounted for $1,584 million worth of shipments, fully three-quarters of the total out-of-country exports during the year.

United States

The U.S. was Alberta's most important customer in 1989, purchasing about $609 million worth of agricultural commodities, a rise of 2 per cent from 1988. While shipments of many products were down, increases in exports of a few major items were sufficient to produce this modest improvement.

Beef exports rose by approximately $16.3 million to $65 million mainly as a result of a 26 per cent increase in sales volume. Oat exports, partly due to marketing deregulation in Canada, were up from $31.3 million a year earlier to $80.9 million, with quantities rising from 205 052 tonnes to 486 472 tonnes. Also, noteworthy increases occurred in exports of barley, dehydrated alfalfa, seeds for sowing, and fruits, vegetables and their preparations.

Persistent problems in the packing industry, and countervail duties, led to a 33 per cent decrease in pork shipment volumes, with total value declining from $46.2 million to $31.6 million. Live slaughter and feeder cattle exports, due to expanded slaughter capacity in Alberta, were down from 216,086 head in 1988 to 141,767 head. Purebred cattle exports also decreased markedly because of increased breeding activity in the province.

Japan

Japanese imports of agricultural commodities from Alberta were estimated at about $529 million, compared with $472 million and $354 million in 1988 and 1987, respectively. Canola seed, at $220 million, was the single most important commodity, accounting for close to 42 per cent of the total 1989 export value and advancing some $15 million from 1988.

Beef shipments to Japanese markets rose sharply to 2 599 tonnes, from 985 tonnes in 1988, because of less restrictive import quotas. The total shipment value of $13.4 million was almost two-and-a-half times the 1988 value. Significant advances were also achieved in shipments of dehydrated alfalfa, raw hides and skins, and milled and unmilled cereals.

People's Republic of China

Alberta's exports of agricultural commodities to the People's Republic of China in 1989 totalled $118.8 million, down from a record $441.1 million in 1988. The sole cause of this reduction was a dramatic $340.5 million drop in wheat exports. Barley shipments more than doubled in value to $14.2 million while canola oil shipments, nil in 1988, totalled $9.8 million in 1989.

Other Asia

Other Asian markets of any consequence in 1989 included Taiwan, South Korea and Indonesia, the Philippines and Bangladesh. Exports to these countries were worth $131.7 million and mostly comprised raw hides and skins, wheat, oilseed cake and meal, and beef.

U.S.S.R.

The only notable commodity purchased by the U.S.S.R. from Alberta on a regular basis is wheat. It consistently accounts for over 80 per cent of this province's agricultural shipments to that country. In 1989, it accounted for 84 per cent of the $126.8 million export total, despite a $113.2 million drop. Significantly, barley shipments rose from just over half a million dollars to almost $16 million.

Western Europe

Exports to Western Europe totalled $127.1 million, down from a 1988 total of $152.1 million. Italy, Belgium/Luxembourg and the United

Kingdom, with $28.4 million, $24.3 million and $21.9 million worth of purchases, respectively, were the major markets. Wheat was by far the most important commodity, making up over 40 per cent of the total export value. Horsemeat and tallow shipments were also significant.

Middle East

Shipments from Alberta to the Middle East increased by a whopping 82 per cent in 1989 to $254.6 million. Saudi Arabia alone accounted for 45 per cent of the total exports to the region, with $115 million worth of purchases, up from $43.4 million in 1988. Iran and Iraq were also major buyers. Prominent among the commodities shipped to the Middle East were barley (mostly to Saudi Arabia) and wheat.

Other Africa

Alberta's agricultural exports to this region in 1989 amounted to $32.7 million, compared with $34.4 million during the preceding year. The decline was due to significantly reduced Algerian imports of wheat.

South and Central America

Agricultural exports to South and Central America from Alberta in 1989 were worth $32.3 million and $69 million, respectively. The combined total of $101.3 million was 25 per cent lower than the corresponding total for 1988. Mexico ($38.1 million), Cuba ($22.6 million), Colombia ($13.7 million) and Brazil ($12.0 million) were the region's most active importers. Heading the list of commodities imported were wheat ($84.7 million) and canola ($24.2 million).
